

Project Task List 1

Team Name: The Bookaneers

Team Members: Mbaye Fall and Cheyenne Hunsley

Team Lead: Cheyenne Hunsley

Project Topic: Book Review and Book Search Engine.

Project Description: A website for books where users can provide reviews and personal descriptions and include their own “book playlist” of recommendations and current reads. The website will provide a search engine that will allow users to search their favourite books or browse titles based on subject descriptors and see similar recommendations (requires an internal recommendation algorithm). Each book will have its own page with a general summary of the book and a list of users who have it within their personal library and their individual reviews of said book.

Target Audience: Book enthusiasts and reader's looking for similar books and recommendations.
